

TEoH Lay-Reader Questionnaire

Format / Instructions

Please email your responses to me at ScotFagerland@Gmail.com . Unfortunately, I can only upload documents in PDF format. It will be much easier for you to fill this out in Word. If you'd like a .docx copy to fill out directly, you can [download it here](#) from Google Drive.

Your AWESOMEness

The Evolution of Human (TEoH) will resonate most with AWESOME thinkers:

Agnostic / Atheist,
Worldly,
Existential,
Scientific / Statistical,
Objective,
Moderate, and
Educated

(though I'd love others to read it!)

Please help me identify your AWESOMEness with self-identified scores on each of the following attributes. Feel free to elaborate after each score. (I'll explain the coloring later).

“A” is for Atheist / Agnostic

0	1	2	3	4	5	6	7	8	9	10
---	---	---	---	---	---	---	---	---	---	----

0 = Unquestioningly religious, 5 = Completely agnostic / uncertain, 10 = Unquestioningly atheist

1. What is your “A score”? Feel free to comment.

“S” is for Scientific / Statistical

0	1	2	3	4	5	6	7	8	9	10
---	---	---	---	---	---	---	---	---	---	----

0 = I hate science!

10 = I fight for science!

2. What is your “S score”? Feel free to comment.

“M” is for Moderate

How do you describe yourself on the socio-political spectrum?

0	1	2	3	4	5	6	7	8	9	10
---	---	---	---	---	---	---	---	---	---	----

0 = Far Left,

5 = Moderate or mixed,

10 = Far right

3. What is your “M score”? Feel free to comment.

Educated

4. Please list your degrees or describe any other education you’ve pursued after high school.

Degree (BA, MS, etc.)	University	Major / Specialty
Bachelor’s		
Master’s		
Doctorate		

Any comments about your education?

Genre

Have you read any general-audience non-fiction books for your own enrichment? (Science, natural history, world history, philosophy, psychology, sociology, current events ...) What are some books or authors that you've read recently or enjoyed the most?

Are We a Match?

Ideology

If your A, S, and / or M scores are in the yellow zones, then you should probably expect to read passages in *TEoH* that challenge your worldview. Would you be comfortable reading an outsider's perspective discussing your belief system as just one among many? That could apply to biblical scripture, for instance, as well as the Zinn-Marxist framework of class struggle dynamics.

Interest

If your S score was in the yellow zone, and / or you have no degrees, and / or you have not read books in this genre, then you might find *TEoH* to be more advanced reading than the books you are accustomed to. Although I try to reach everyone, this book is primarily for people who are accustomed to reading "nerdy" content. Have you been interested in learning more about science and history?

If either concern applies to you and you are still interested, I'd welcome your thoughts here; we can also discuss in our first phone call.

Contact

If it's still a green-light, GREAT! :D Let's arrange an orientation phone call.

What's your phone number and time zone?

I set aside Saturday evenings and Sunday mornings for TEOH work. Is there such a time this weekend that would work best for you? (I'm in the Pacific Time Zone)

Please don't read ahead. I'll let you know what to read when!

Hope to talk soon
Scot
